CHEMICALS

DEGREASING DETERGENT CONCENTRATE

Powerful alkaline cleaner. Easily removes thick, fatty soiling from all alkali resistant surfaces. Also suitable for manual floor cleaning, Moderately foaming

For the manual cleaning of surfaces and appliances eg. cookers, extractors, hoods, grids, fryers etc. Also suitable for manual floor cleaning

NEUTRAL DISHWASHING CONCENTRATE

Universal, very efficient detergent for manual dishwashing. It gives the dishes a beautiful gloss. Heavily foaming and slightly perfumed. Very kind to skin and materials.
It is used for the cleaning of dishes and kitchen appliances. Also suitable to be used as an all purpose cleaner.

ALL PURPOSE CLEANER (HANDY ANDY)

Thick liquid cream cleanser with a pleasant citrus fragrance which has a mild abrasive formulation designed to accomplish medium to heavy duty cleaning tasks. It is also active deep cleans even the most difficult soils and stains found in all commercial environments such as deep scum and oils without dulling.

CARPET CLEANER

Neutral, highly effective carpet shampoo for synthetic and woollen carpets.
The product doesn't contain optical brighteners and is used for the intermediate cleaning of all kinds of carpets and fibres.

DISINFECTANT DETERGENT CONCENTRATE

Disinfectant cleaner based on quaternary ammonium compounds.
Very kind to skin and materials, with a weak odour. Used for cleaning and disinfection of all water-resistant surfaces and appliances in hospitals, homes, food industry, large scale kitchens, indoor swimming pools, showers, saunas etc.
Not recommended for use on treated floors.

GLASS & WINDOW CLEANER

Glass window cleaner formulated for both domestic and commercial use. The product is also recommended for the removal of finger marks and on stainless steel surfaces.

HAND WASH LIQUID

High quality hand decontaminant, based on triclosan and phenoxy ethanol.
Used for the removal of soiling from the hands in industrial kitchens, food processing plants, washroom environments etc.
Can be applied using wall mounted soap dispensers, bottles or dispenser pumps. Allow a minimum contact time of 30 seconds

TOILET CLEANER

Heavily foaming toilet bowl cleaning agent that offers highly effective dissolving characteristics for limescale and urinary stains.
It is used for the thorough removal of stains and cleaning of toilet bowls and urinals in high frequency buildings such as schools, hospitals etc.

TILE CLEANER

This solution is a highly concentrated floor cleaner, designed to remove heavy grease and oil deposits from cement floors and most tiled surfaces. It is an easy to use economical and highly effective industrial/universal floor cleaner. Moderately foaming and dissolves all fatty and oily soiling. Also suitable for basic cleaning of stoneware tiles.

FLOOR CLEANER

Highly effective floor cleaner and degreaser. The powerful cleaning action removes oils, grease and heavy soiling from flooring surfaces. Industrial floor cleaner leaves no smears or residues upon rinsing and is ideal for garages, workshops , service stations etc.

DISINFECTANT DETERGENT CONCENTRATE (SANITISER)

Disinfectant cleaner based on quaternary ammonium compounds.
Very kind to skin and materials with a weak odour. Used for cleaning and disinfecting all water resistant surfaces and appliances in hospitals, homes, food industry large scale kitchens etc

INDUSTRIAL CLEANER

This formula is a non-ammoniated concentrated streak free glass and window cleaner formulated for both domestic and commercial use.
This product is also recommended for the removal of finger marks and other soiling from stainless steel and other surfaces.

BLEACH SOLUTION

Normal Bleaching agent that cleans, whitens, removes and brightens fabrics. Can be used for disinfection of all water resistant surfaces.
Also used for disinfection and laundry in theatres, hospitals etc.

FOAM BATH

Rich in Vitamin E that silkens the skin leaving a long lasting fragrance.
Gentle fragrances are blended into this luxurious formula to create a beautiful bath time retreat that is totally irresistible.

MATTING

Extra Duty- Heavy Duty Rubber Mats

Heavy Duty Rubber Mat is a vinyl/ rubber-loop mat usually with an open mesh backing that allows water and dirt to fall through the mat. The vinyl-loop design removes dirt and moisture from shoes and securely traps them beneath the mat's surface. Heavy Duty Rubber Mat is specially designed to dry quickly and resist mildew making it the perfect mat for outdoor entrances, drinking fountains and pool areas. Intended for very high traffic areas, this mat can be branded using the cut-out method making it ideal for both industrial and commercial applications.

Application: Interior or exterior entrances in a mat well or loose-lay with PVC edging.
Colours Available : 18
Thickness: 15-18mm

Cushion Fall -Light Duty Rubber Mats

Cushion Fall is a vinyl/rubber-loop outdoor mat with a solid vinyl backing that holds and prevents water and dirt to fall through the mat. The vinyl-loop design removes dirt and moisture from shoes and securely traps them within the mat's backing leaving the surface clean and dry. Cushion Fall is also designed to dry quickly and resist mildew making it the perfect mat for both indoor and outdoor entrances. Intended for high traffic areas, this mat can be branded using the cut-out method and is ideal for light industrial and commercial applications.

Application: Interior or exterior entrances as loose-lay with PVC edging
Colours Available : 18
Thickness: 9-11mm

Spectra Clean

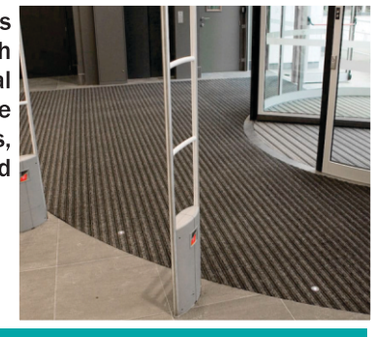

Spectra Clean is excellent for logo mats for use in high-traffic areas. These logo mats offer aggressive scraping action both indoors and outside. Your logo is inlaid into the mat, producing a highly customizable design with razor-sharp clarity.
Spectra Clean Mats can be manufactured up to 2.1m wide and virtually any length. UV-stabilizers make this logo mat resistant to fading, even in direct sunlight, as well as fast drying. The Spectra Clean Mat's solution dyed fiber is coarse enough to effectively clean moisture and dirt from shoes and hide the appearance of walking patterns.

Application: Interior or exterior covered entrances with PVC edging.
Colours Available : 18
Thickness: 11-12mm

Trio Brush

Textured polypropylene fibres combined with alternating woven brush and polyamide strips provide outstanding scraping and drying action. Superior high traffic entrance matting with anti-slip latex backing. Popular for both interior walkways and reception areas providing a total dirt-barrier solution. Also frequently used in high traffic shop and mall entrance areas. Suitable for recessed mat wells or lay to surface with bevelled edging. Intended for high traffic areas, this mat can be branded using the cut-out method making it ideal for industrial and commercial applications.

Application: Interior or exterior entrances in mat wells or as loose-lay with PVC edging
Colours Available : 2
Thickness: 13mm

Trio Scraper

Textured polypropylene fibres and polyamide strips provide outstanding scraping action. Superior high traffic entrance matting with anti-slip latex backing. Popular for walkways and entrance areas providing a total dirt-barrier solution. Also frequently used in high traffic shop and mall entrance areas. Suitable for recessed mat wells or lay to surface with bevelled edging. Intended for high traffic areas, this mat can be branded using the cut-out method making it ideal for industrial and commercial applications.
Application: Interior or exterior entrances in mat wells or as loose-lay with PVC edging
Colours Available : 2
Thickness: 13mm
Thickness: 15-18mm

HYGIENE EQUIPMENT + MACHINERY

DUST PANS

Specially designed to efficiently collect debris and dirt, making cleaning quick and easy

WET FLOOR SIGNS

Serious injuries can be avoided at your facility by installing the proper safety signs where hazards exist. Place a slippery wet floor sign in your stairwell and near notoriously wet or slippery floors to prevent slipping or tripping. We provide a large selection of affordable and high quality slip hazard signs to help you reduce the number of slip and fall injuries at your workplace.

PLASTIC BUCKET

Heavy duty buckets can come in different colours and can be colour coded to avoid cross contamination. The heavy-duty plastic buckets are strong and durable. Sturdy metal handles, clip-on lids and high impact Polypropylene.

ECONO DOUBLE BUCKET MOP + WRINGER

The Econo Double mop and wringer system reduces splashing, which means a safer environment, cleaner floors and improved productivity. Massive capacity for the largest commercial jobs and lasts ten times longer than comparable wringers. It has a highly efficient side press wringer ideal for large establishments where there is high risk of cross-contamination, e.g. hospitals, washrooms, food courts.

METAL FLOOR SQUEEGEES

Unique smooth floor mopping system ideal for removing water from floors and surfaces. Comes with rubber blade and complete handle.
